**Purpose of Inspection:**

Visited the site to GPS the disturbed area to confirm acreage at the site.

**Inspection Summary:**

Started to GPS the site when it began to rain. It rained hard enough that I didn't complete the survey. Waited at the site for the rain to quit. When it didn't let up I left the site. Will GPS the site at another time.

The disturbance at the site is presently <2 acres. This footprint hasn't changed for some time, the operation is presently developing a highwall and a small pit in which they have been working for the last year or so. The permitted area is fenced and signs mark the entrance to the site.

**Directions to the site:**

Refer to previous inspection memos.

**GPS data:**

None gathered.
